# CERTIFICATE COURSE ON PYTHON FOR DATA SCIENCE

This course will provide hands-on experience in Python to solve real data science challenges. Students will be able to practice Python programming and coding for modeling, statistics, and storytelling. This course will help the students to utilize popular libraries such as Pandas, numPy, matplotlib, and SKLearn. Students will be able to create analytics models and apply these to real-world problems.

**Mode of Delivery:** Offline/Online

**Duration:** 22 Hrs. of Theory & 28 Hrs. of Practical Session

**Fee:** The registration fee for inhouse candidates - Rs 500/-
The registration fee for external candidates - Rs 1000/-
